A REVOLUTIONARY THROWBACK

ABOUT US

19  
MAR

The interaction between a retro feeling and a modern touch is what characterizes this new series of lighting from Studio Italia Design. It's called Nostalgia and is designed by Dima Loginoff. I recognize the shape of the glass lamp shades from my childhood, but the cool new feature (and what truly brings me joy) is the colors: crystal, chrome, gold and rose gold. It brings a certain luxury to the nostalgic design. Don't be afraid to put together several pendants in a cluster. You can also mix the different shapes and colors all together. That would look pretty darn cool!

Nostalgia comes in three sizes and costs from DKK 2.299,-
