TIMELESS DESIGNS/ MATERIALS

Blown glass and chrome are still in vogue. In fact, they're here to stay with more designs and colours to choose from. This year saw an exciting combination of both!

1. Nostalgia by Dima Loginoff for Studio Italia, available from Lightcraft.
2. Penta's Enoki by Daniel Debiassi & Federico Sandri, available from Studio 216.
3. A-Tube Nano, Studio Italia, available from Lightcraft.
4. Empatia Mobile by Carlotta de Bevilacqua for Artemide, available from Lightcraft.
5. Spiral pendant, available from BoConcept.
6. Colimaçon by Wilmotte & Industries for Artemide, available from Lightcraft.
7. Rain from Studio Italia, available from Lightcraft.

Be expressive with bold, playful, and stylish chrome. The material adds a futuristic look and ambiance to your space, especially when combined to form clusters.

Chrome is also surprisingly versatile, and can be paired with a myriad of materials and colours including marble, leather, and wood. Choose neutral colours to go with them, or try using intense colours such as yellow, blue, pink, purple, orange, or even green for an eye-catching display.

The Random lighting fixture, designed by Chia-Ying Lee for Studio Italia, is available at Lightcraft.
